

Guidelines on the fixture of grilles for buildings in Putrajaya

The guidelines have been formulated to ensure that grilles fixed to buildings in Putrajaya do not compromise the approved facade of buildings.

Characteristics of Design:

1. All grilles should be fixed from the inside of the building with the exception of:

- a) Main entrance and kitchen door at the rear of the building
- b) Sliding glass door
- c) Full grilles at the wet kitchen

provided that the following conditions apply:

- a) the grilles do not exceed the boundaries of the door
- b) the grilles at the wet kitchen do not exceed the boundaries of the existing wall
- c) the grilles should be finished in white, black or "warna keluli" only
- d) the fixture of grilles on the outside of windows is totally prohibited.

2. Locks for grilles should adhere to guidelines and approval by the Fire and Rescue Department.

Compounds

Failure to comply with these guidelines would render the owner of the building liable to penalty under Act 133 (Section 127) and By-laws of Compoundable Offences (Kawasan Perbadanan Putrajaya) Roads, Drains and Buildings 1999 for which the fine is One Thousand Ringgit.
